**COFFEE ORGANIZATION** 

11 September 2012 Original: English

International Coffee Council 109<sup>th</sup> Session 24 – 28 September 2012 London, United Kingdom

ORGANIZAÇÃO INTERNACIONAL

ORGANISATION INTERNATIONALE DU

**Obstacles to consumption** 

## **Background**

- In accordance with Article 24 of the International Coffee Agreement 2007 (Annex I), Members undertake to recognize the importance of the sustainable development of the coffee sector, and of the removal of current obstacles and avoidance of new obstacles which may hinder trade and consumption.
- 2. This document contains updated information on such obstacles to enable the Council to assess compliance by Member countries with the provisions of Article 24. To that end, tables providing current information on taxes and tariffs imposed on green, roasted and soluble forms of coffee by importing and exporting countries<sup>1</sup> can be found in Annex II.
- 3. According to the Rules on Statistics - Statistical Reports (ICC-102-10), Members are required to notify the Organization of any changes to taxes and duties on coffee. Reports containing updated information received from Members on these issues are circulated to the Council regularly. All Members are requested to inform the Executive Director of any measures adopted in their countries in connection with the provisions of Article 24, and of any changes to current levels of taxes and duties on coffee exports and/or imports.

## Action

The Council is requested to consider this document.

 $<sup>^1</sup>$  The term 'country' is used in a broad sense for what are officially classed as 'customs territories', but which may not be countries in the usual sense of the word. The denomination and classification used herein do not imply, on the part of the ICO, any judgement as to the legal or other status of any territory, or any endorsement or acceptance of any boundary.

#### **INTERNATIONAL COFFEE AGREEMENT 2007**

#### Article 24

### Removal of obstacles to trade and consumption

- (1) Members recognize the importance of the sustainable development of the coffee sector and of the removal of current obstacles and avoidance of new obstacles which may hinder trade and consumption, while recognizing at the same time the right of Members to regulate, and to introduce new regulations, in order to meet national health and environmental policy objectives, consistent with their commitments and obligations under international agreements, including those related to international trade.
- (2) Members recognize that there are at present in effect measures which may to a greater or lesser extent hinder the increase in consumption of coffee, in particular:
  - (a) import arrangements applicable to coffee, including preferential and other tariffs, quotas, operations of government monopolies and official purchasing agencies, and other administrative rules and commercial practices;
  - (b) export arrangements as regards direct or indirect subsidies and other administrative rules and commercial practices; and
  - (c) internal trade conditions and domestic and regional legal and administrative provisions which may affect consumption.
- (3) Having regard to the objectives stated above and to the provisions of paragraph (4) of this Article, Members shall endeavour to pursue tariff reductions on coffee or to take other action to remove obstacles to increased consumption.
- (4) Taking into account their mutual interest, Members undertake to seek ways and means by which the obstacles to increased trade and consumption referred to in paragraph (2) of this Article may be progressively reduced and eventually, wherever possible, eliminated, or by which the effects of such obstacles may be substantially diminished.
- (5) Taking into account any commitments undertaken under the provisions of paragraph (4) of this Article, Members shall inform the Council annually of all measures adopted with a view to implementing the provisions of this Article.
- (6) The Executive Director shall prepare periodically a survey of the obstacles to consumption to be reviewed by the Council.
- (7) The Council may, in order to further the purposes of this Article, make recommendations to Members, which shall report as soon as possible to the Council on the measures adopted with a view to implementing such recommendations.

#### **EXPLANATORY NOTE**

The three tables in this Annex contain information on tariffs and taxes imposed on coffee by importing and exporting countries. A brief explanation of each table is given below:

- Table 1 shows taxes on exports and imports of coffee by exporting countries, where such information has been made available. Coffee is grouped into three classifications (green, roasted and soluble), with a range of tariffs given in cases where a group contains more than one tariff line, for example decaffeinated and non-decaffeinated coffee. A blank in the table means that the information is not currently available. In the case of bilateral or regional agreements, such as between the Andean Community of Nations, other rates may be applicable.
- Table 2 shows tariffs on imports of coffee by importing countries. The first figure shown in each instance is the Most-Favoured Nation (MFN) rate accorded to all members of the WTO. Alternative rates, such as those made available to developing countries or through trade agreements, are then shown below. In certain cases, higher rates are also imposed, for example by the United States on Cuba. These higher rates are known as 'General duty' and are denoted 'General' in the table. Finally, the tariff codes 2101.11 and 2101.12 for soluble coffee contain many subdivisions, depending on such criteria as sugar or milk content. Effort has been made to give the specific tariff for as many of these tariff lines as possible.
- Table 3 shows domestic taxes imposed on imports of coffee by importing countries, such as VAT rates and excise, where such information is available. This table has been updated to include an expanded list of non-Member importing countries.
